

SIMRET ABEBE

simretabebe24@gmail.com | +251993328821 | [GitHub Profile](#) | [LinkedIn Profile](#)

Computer Science student at Bahir Dar University (BiT) with a strong interest in full-stack web development. Experienced in building modern web applications using React.js, Next.js, Python, and Django, with a focus on clean user interfaces, performance, and scalable architecture. Passionate about solving real-world problems through technology and **currently expanding my expertise in Machine Learning, Artificial Intelligence, and intelligent systems.**

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML5, CSS3

Frameworks: Django, Django REST Framework, React.js, Next.js, Tailwind CSS, Node.js

Tools & Interests: PostgreSQL, MySQL, MongoDB, Git, GitHub, REST APIs, JWT, Socket.io, **Machine Learning (In-Progress)**

EDUCATION

Bahir Dar University – Bahir Dar Institute of Technology (BiT)

Expected July 2027

B.Sc. in Computer Science

PROFESSIONAL EXPERIENCE

MERN Stack Intern – Future Interns (Remote)

Aug 2025 – Sep 2025

MongoDB, Express.js, React.js, Node.js

- Architected and tested 10+ RESTful API integrations, ensuring seamless data flow between frontend and backend.
- Managed MongoDB schemas to ensure high data availability and reliability for production features.
- Collaborated on real-time messaging features using Node.js to improve application responsiveness.

Frontend Development Intern – Prodigy Info Tech (Remote)

Apr 2025 – May 2025

React.js, HTML, CSS, JavaScript

- Improved UI performance by 15% through optimized React.js component rendering and state management.
- Built responsive web modules ensuring consistent user experience across multiple device types.
- Implemented modular CSS components, reducing codebase redundancy and improving maintainability.

KEY PROJECTS

Queue Management System

Full-Stack Project

Django, React, PostgreSQL, JWT

- Developed a robust backend using Django REST Framework to manage institutional service queues.
- Implemented secure user authentication and role-based access control (RBAC) with JWT tokens.
- Optimized PostgreSQL relational schemas, improving data retrieval efficiency for high-traffic environments.

Real-time Chat Application

Full-Stack Project

MERN Stack, Socket.io, Zustand, Tailwind CSS

- Engineered a messaging platform supporting instant communication and live user status with Socket.io.
- Integrated media sharing and global state management to ensure a high-performance, seamless UI.

VOLUNTEERING & LEADERSHIP

G17 UAC Campus Ambassador – Bahir Dar University

Nov 2025 – Present

- Lead outreach initiatives to advocate for SDG 9 (Industry, Innovation & Infrastructure) at the university level.
- Coordinated digital literacy workshops and community projects for 50+ students in Bahir Dar.
